My ABC Letters Book · Level 2 · Ages 4–6

Guide for parents & teachers

Read this first — set up & goals · **Level 2** · Ages 4–6

Set up the space

- 1 **A fixed, calm spot:** a table and chair at your child's size, good light, no screens nearby.
- 2 **Everything in reach:** marker and cloth in a small tray, so your child can fetch it and tidy up alone.
- 3 **Less is more:** one or two letters per session, starting with the letters of your child's name.
- 4 **Freedom within limits:** let your child choose the letter or the color. The only rule: follow the arrows.
- 5 **Show more, talk less:** draw the stroke once, slowly, then step back and let your child try.

If your child won't continue?

- 1 **Drop the pressure:** refusing is a message, not bad behaviour.
- 2 **Check the body:** is your child tired, hungry or sleepy? Is the marker hard to hold?
- 3 **Make the step smaller:** trace with a finger instead of the marker, or switch to an easier letter (I, L, O, T).
- 4 **Change the feel:** trace the letter in sand or on a tray, or build it from yarn or clay.
- 5 **End on a good note:** stop after 5–10 minutes and praise the effort.

If refusing goes on for weeks, or holding the marker is very hard: ask a specialist.

Tools & set-up

- 1 **A4 paper** and a home printer. Print at **100%** (Actual size), not “Fit to page”.
- 2 **A wipe-clean marker** (medium tip) and a soft cloth or tissue.
- 3 **A laminating pouch** or a clear sleeve, so each page can be written on and wiped many times.
- 4 **Optional:** yarn, sand or clay — make the letter with your hands, too.

What your child will learn

- 1 **Level 2 (ages 4–6):** for children who already know most letters from **Level 1** (Alphabet Tracing Book). Now they write on their own and write their first words.
- 2 **Goal:** write every capital and small letter without help, hear the first sound of a word, and write simple words.
- 3 **Writing path:** where to start, which way to go and in what order to draw each line.
- 4 **Skills:** pencil control · writing from memory · beginning sounds · copying a whole word left to right.
- 5 **New in Level 2:** section 3 asks your child to **write the missing first letter** and **write the whole word**.
- 6 **Not ready yet?** if writing alone is still hard, go back to Level 1 (ages 3–4) for a while. That is normal.

Parents' guide · 1 of 2

Guide for parents & teachers

How to present each letter · Level 2 · Ages 4–6

How to present the letter

- 1 Pick a letter. Say its name and its sound clearly.
- 2 Show the page and the picture word (A... apple).
- 3 **Finger first:** trace the big letter from circle 1, following the arrows. Then the marker on the same path.
- 4 **Rows:** dots → faint letters → **write alone** in the empty row. Do not help with the last row; just watch.
- 5 **Section 3, first letter:** say each picture slowly (“a-a-ant”) and write the first letter in the box.
- 6 **Section 3, the word:** trace the dotted word, then write it alone on the line.
- 7 Color a star, and praise the effort, not perfect writing.

Talk about it

- 1 What does this letter look like? (b = a bat and a ball; l = a stick)
- 2 Where do we start: top or bottom? Which way do we go?
- 3 How many lines or curves does it need? Is there a dot?
- 4 What word starts with the same sound?
- 5 b · d · p · q look alike: what is different between them?
- 6 Can you write it in the air first? Which part was the hardest?

The letter here stands alone; its shape can change a little inside a word.

Warm-up before writing

- 1 **Dough and squeezing:** squeeze, roll and pinch dough to wake up the hand muscles.
- 2 **Sand or fine salt:** draw straight and curvy lines with a finger.
- 3 **In the air:** draw the letter with a big arm movement while saying its name.
- 4 **Pick and place:** move small beads or pom-poms with tweezers or two fingers.
- 5 **Short:** one or two minutes, then move to the page.

Goal: a relaxed hand before the marker.

Notes for parent / teacher

Child's name: _____

Letters they know well: _____

Letters that need time: _____

Marker grip / interest: _____

Notes matter most: write what you saw and start the next session from it.

Parents' guide · 2 of 2

Pencil grip — what's normal?

Read this first · Level 2 · Ages 4–6

Ages 2–3 · Fist grip

The whole hand holds the crayon and the arm moves. Normal at this age.

Ages 3–4 · Finger grip

Four fingers on the crayon, palm facing down. The fingers start to take over.

Ages 4–6 · Tripod grip

Thumb and index finger pinch, the crayon rests on the middle finger, the wrist moves.

All three grips are normal at their age. Don't rush it — the grip grows with the hand.

How to help

- **Short, thick crayons:** break crayons in half so only the fingertips fit.
- **Show, don't force:** hold your own pencil next to your child; avoid moving their fingers for them.
- **Strong hands first:** dough, picking up small things with two fingers and drawing on a wall board.
- **Praise the try,** not the grip. A relaxed child learns faster.
- **Ask a specialist** if around age 6 the fist grip has not changed, or writing hurts.

Memory Challenge

Write the letter without looking

Write the letter you hear

The grown-up says a letter sound or a word that starts with it. The child writes the letter in the box without peeking at the pages.

1	2	3	4
5	6	7	8
9	10	11	12
13	14	15	16
17	18	19	20
21	22	23	24
25	26	 You can do it!
