Before you start

Read this first — 2 minutes

How to use this book

- Print on A4 at 100% (Actual size), single-sided.
- Start anywhere: pages are not in a fixed order.
- Choose 4–5 colors first, then repeat them across the page.
- Take your time: a page can take 30–60 minutes. Finish it over several sittings.

What you need

- Sharp colored pencils give the most control over small areas.
- Fine-liner markers or gel pens for details. Put scrap paper behind the page.
- Optional: a white gel pen for highlights, and a warm drink.

Why you will enjoy it

- A calm, screen-free break: one small area at a time.
- Color choices: harmony, contrast, light and shadow.
- Patience and fine hand control.
- Color together with a friend or a family member.

Did you know?

- Coloring one small area at a time is an easy way to slow down and focus on a single thing — a quiet break for a busy mind.

Palette trick

- Pick one color for the main subject and a different, softer one for the background. The main subject will pop out of the page.
